

EMS Community Paramedicine Patient Information

Grant Medical Center patients with heart failure, heart attack, heart valve replacement, open-heart surgery, breathing problems, stroke, and certain other health problems may be eligible for **FREE Community Paramedic visits.**

Our Community Paramedics may help...

- You feel better.
- Cut down the need for 911, ER, or hospital use.
- Save you money & time because you are not as sick.
- Understand doctor and hospital instructions.
- Find health care services, such as home health & medical equipment suppliers.
- Find community resources, like the charitable pharmacy, food banks, housing assistance, senior services, and transportation.
- Find transportation to medical appointments and follow-up visits.
- Find a primary care or other doctor.
- Schedule doctor, clinic, and other appointments.
- Get your prescription medications.
- Understand what medicines to take and when to take them.

If interested, ask your nurse, doctor, social worker, or case manager to contact us.
